A WEEKLY JOURNAL, IDENTICAL IN INTEREST WITH ITS OWN PEOPLE.

VOL. IX.

MT. STERLING, KENTUCKY, TUESDAY, FEBRUARY 28, 1899.

NO. 33

CONCERNING INDIA.

HALF THE SIZE OF OUR COUNTRY

The People Closely Related to the

Anglo-Saxon Race.

Speak Forty Different Languages

and Dialects—Matters of

Interest.

The following letter was written by Rev. E. M. Gordon, who with his wife lectured at the Christian Church in this city on Tuesday evening:

India is about half as large as the United States. Its length equals the distance from the northern boundary of North Dakota to the most southern point of Texas. Its breadth equals the distance from New York city to Denver, Col.

The people of India are more closely related to the Anglo-Saxon race than any non-Christian people in the world. They resemble the people of Europe not only in feature but also in language. They use words for father, elder, brother, daughter, serpent, root, door, etc., which have the same sign as our English words. The people of India number four times as many as the people of the United States. The population is about 800,000,000. They are an extremely diverse people. A Hindoo is born regal; he is named, weaned, clothed, married, buried or burned regally. He sleeps, wakes, yawns, eats, and drinks regally. Hindoo will also climb a tree regally, for he first invokes the protection of the tree god. Propag Chaudhar (a non-Christian Bengali) says: "Our Hindoo, religious custom is (consequently) a most fitting comment, there is a great place in Christian religion in our life."

The people of India do not have the same language. There are forty different languages and a few dialects, most of them closely related. Two languages are spoken by people that live in North and America. They are Bengali and Hindi. The word for salvation is to be released from transmigration. Sin includes the killing of a man, for this is the greatest sin a man can commit. It is, therefore, time for the people to understand that a missionary means when he is in sin and salvation. A man who is a Mohammedan practices circumcision and ab-

stains from the use of hog's flesh. They accept the Old Testament and regard Christ as a prophet. A Mohammedan will always wear a beard. A Hindoo is seldom seen with a beard. Hindooism is the religion of the bulk of the people. The Hindoos are divided up into innumerable castes. They believe men are distinct as to their origin. The Brahman came from the head of God, the K-hatri from the arms of God, the Valshva from the thigh of God, the Sudra from the feet of God, and he is the slave of the higher castes. A man of the higher castes will have no direct contact with the lower castes. This caste system is a great barrier in the way of the gospel. For a man of the higher castes to become a Christian means that he must be equal with the Christians of the lower castes. The grace of God can alone remove the prejudices of a lifetime. Hindoos believe that God may be worshipped in the cow, the monkey, the elephant, the rook, the tree, the stone, the sun, etc. Hindooism teaches that life is sacred in all animals. The Brahman who kills an animal without reason will die violent deaths in future incarnations to the number of hairs in the body of the animal he killed. Hindooism teaches that there have been many incarnations of the Deity, but the Hindoos know of no Savior from sin and guilt.

There are 500,000 lepers; 417,000 die from cholera every year; 15,000 die from snake bites, and 3,500,000 die from malarial fever. The average term of life is twenty-six years. June and July the months for cholera epidemics. September and October is the time when fever prevails. The people of India are very poor. Fifty million have only one meal a day. They live mostly on rice. Some of the very poor people eat the carcasses of oxen and buffaloes. A laborer receives from five to ten cents. The average population per square mile is 184; United States of America it is 18. M. Moazzam writes: As Christ's religion concentrates suffering, sorrow, raises the fallen, heals the afflicted, it has an immense message for the afflicted Hindoo."

The Danes began mission work in 1705. Carey was not allowed to work in British India. His work was done under the Danish flag. There are now 65 societies at work, with 857 ordained missionaries, 797 ordained native ministers, 3,491 active unordained preachers, and 711 fully trained and ordained. There are 81 theological and training schools. There are 97 medical missionaries, and 168 native physicians with 166 hospitals or dispensaries. In one field, in one day, 2,222 were baptized; in the same field, in forty-five days, there were 9,000 baptisms upon confession of faith. When Carey entered India of a night he would see the glare of a fire in the distance. The breeze would bring to him the odor of burning flesh and hair and bones. Ten thousand widows were burned every month with their husbands. Now the annual suttee alters are seen by the missionary, and the old men tell of the last suttee they witnessed as children. When Carey entered India, schools for children were unknown. The Bible was not translated. Now the Bible is translated in every written language in India. In Bombay there is a large native church paying its own pastor, churches are being organized all over the country, and the day of redemption draws nigh.

Our own work was begun in India was begun in 1882. The F. C. M. S. has four stations and several outstations. The missionaries do preaching, pastoral work, teaching, zenana work; orphanages are opened, medicine is distributed with the preaching of the Word, and books are sold. The claims of so large an empire as India should surely not only be admitted, but realized. Should not the interests of one-fifth of our race stir up our deepest sympathies and the ardor of our blood-bought power? Does not the low wall of the bribeless, hopeless misery, arising from one-half of the heathen world pierce our sluggish ear to a continued, and unrequited effort for India's salvation? Thousands have been saved from darkness to light. Not a day

ROYAL BAKING POWDER CO., NEW YORK.

passed but souls are being won who will shine forever in the diadem of our King. It is for us who call Jesus "Lord, Lord," to do his will; to enter and preach the truth to those who never heard the joyful sound—in Christian Standard.

Manners as Business Capital.

Perhaps nothing besides downright honesty contributes so much to a young man's success in life as a fine manner—courtesy, gentleness, and other things being equal, of two persons applying for a position, the one with the best manner gets it. First impressions are everything. A rough, rude, coarse manner creates an instantaneous prejudice, closes hearts and bars doors against us. The language of the face and the manner are the shorthand of the mind, easily and quickly read. A fine manner with an ugly face, or even a deformed body, is an infinitely greater factor in winning one's way in the world, than a bright, pretty face and a perfect physique, with a bad, brusque manner.

Thousands of professional men, without any special ability, have succeeded in making fortunes by means of a courteous manner. Many a physician owes his reputation and success to the recommendation of his friends and patients, who remember his kindness, gentleness, consideration, and above all, his politeness. This has been the experience of hundreds of successful lawyers, clergymen, merchants, tradesmen, and men of every class, and of every walk in life. Manner makes the man.—Success.

The Tallest Office Building in the World.

Towering high above the other "sky scrapers" in New York City, is the Park Row Building, which lifts its twin towers 390 feet into mid air, and unfurls its two flags over the city at a height of 447 feet above the sidewalk.

This monstrous structure, of twenty-nine stories, contains 950 offices, has 2,095 windows, and cost \$2,400,000. It weighs 20,000 tons, and has a foundation the depth of which is 54 feet. The estimated number of occupants is 4,000.

The Park Row building is considerably the tallest commercial building in the world; and it may surprise many of our readers to know that it stands upon a foundation of sand.

Ninety Per Cent.

Of the people are afflicted with some form of humor, and this causes a variety of diseases. The reason why Hood's Sarsaparilla cures when all others fail is found in the fact that it effectively expels the humor. Scrofula, salt rheum, boils and all other eruptions are permanently cured by this great medicine.

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

It Was Purified Meat.

Gen. Miles in his statement regarding the canned beef furnished by the present administration to American soldiers, is corroborated by the officers and privates without number. The meat used was stringy, was putrid, revolting to the stomachs and made the soldiers sick. Fresh or refrigerated beef was good. The soldiers in the trenches were compelled to use this canned putrid meat in order to sustain life.

Scott Dismissed.

The case against Lieut. E. D. Scott for shooting Col. D. G. Colson was dismissed at the examining trial at Annapolis. Col. Colson would not appear in court, and only one witness was present. The Commonwealth failed to make a case.

He Loved and Lost.

We clip the following from the Harrodsburg Democrat.

"There lives in Washington county, we are informed, six or seven miles south of Springfield, one of the most eccentric human beings, we feel warranted in saying, in Kentucky. Shortly before Abraham Lincoln was inaugurated President of the United States, on the 4th of March, 1861, Basil Haydon was to have married a young lady in the neighborhood in which he now lives, but before the day set for the marriage arrived gossip with another man and has never been heard from by any of her relatives.

"This weighed on the mind of her former lover, and the day the President took his seat in the White House he went to his room in the second story of the building and declared he would never step on earth again as long as he should live. His father and mother were both dead and he had been living in the house alone for several months, doing his own cooking. His bitter disappointment he gave as a reason for his seclusion.

"People at first thought him to be crazy, but after a sufficient length of time, discovered their mistake. Since he first secluded himself, nearly thirty-eight years ago, so far as known, he has never broken his word. He is the owner of a good farm and employs a man to attend to his business, but his employe has at no time been further than the door of his room, neither has anyone else. He orders his clothes and other necessary articles through his assistant, who delivers them at the door. He is now about sixty years of age.

"Nothing has ever before been said through any newspaper of this strange case and the facts are not widely known."

Alexander the Great Had Nerve.

When they told Alexander the Great, on one of his campaigns that hundreds of thousands of Persians confronted him, he replied: "Yet one butcher fears not myriads of sheep." "Alas!" said another of his retainers, "when the Persians draw their bows their arrows are so numerous that they darken the sun." "It will be done to fight in the shade," then, cried the undaunted Alexander, as clever at repartee as he was courageous in battle. If men of that conqueror type have evinced such pluck in winning new glories for their own name, should not the Christian believer be as stout-hearted and determined in his effort to win fresh laurels from the b. y. w. of Christ, the Great Captain of our salvation?

Notice.

The first edition of "The Empire of the South" having been exhausted, a second edition will be ready for distribution by or about March 10, 1899.

It is a handsome volume of about 200 pages descriptive of the South and its vast resources, beautifully illustrated, and regarded by critics as the most complete production of its kind that has ever been published.

Persons wishing to secure this work will please enclose to the undersigned 25 cents per copy, which amount approximates the cost of delivery. Remittances may be made in stamps or otherwise.

Address all communications on this subject to W. A. Turk, Gen'l Pass. Agt., Southern Ry., Washington, D. C.

For Rent.

My place, seven and one-half acres, one mile from the court house on the Grassy Lick pike. Residence has five rooms and all necessary outbuildings; good orchard; good garden. Apply to JOHN M. BUTTS, 27-41 Mt. Sterling, Ky.

MILES OF STAMPS

ISSUED IN THE U. S. LAST YEAR

Some Idea of the Total Output

When it is Known

That if Laid Close Would Stretch

Once and a Half Around

the Equator.

Uncle Sam printed just a few postage stamps during the year 1898. The number of 2-cent stamps issued during the year was about 2,500,000,000. Such a number, obviously, is beyond the grasp of the human mind, but perhaps the matter may be made more clear by putting it otherwise.

A ordinary 2-cent stamp exactly one inch long. From this fact, by a little calculation, it is easy to discover that the number of stamps of this denomination issued in 1898, placed end to end, would extend a distance considerable exceeding 39,000 miles. In other words they would make a continuous "stamp," each one adorned with the head of the father of his country, stretching in a belt more than once and half around the equator.

Of course, though the 2-cent stamps are those principally used, there are others. Enough 1-cent postage stamps have been issued during the year 1898 to stretch from New York City by way of Europe and Asia to Bombay, India, if similarly arranged in one strip. All other stamps, as to production and sales, are of minor importance, comparatively speaking, but it is interesting to know that almost exactly one mile of \$1 stamps were manufactured for the demand of 1898. Of \$5 stamps the production was equivalent to a little more than half a furlong, or about one-fiftieth of a mile.

Now, if all the postage stamps printed by the United States Government in 1898 were placed one on top another, as nearly as might be without putting them under pressure, how high would you suppose the pile of them to be? There is no use guessing; yet would never get it nearly right unless you went to work to calculate it for yourself.

The 3,500,000,000 stamps of all denominations printed during the current year—the statement of course is approximate—would tower to an elevation of twenty-one miles. This is more than three times the height of the highest mountain in the world—Mt. Everest in the Himalayas. If the same number of stamps were piled up in the form of ordinary sheets of 10¢ each, it follows that the stack would be over a one-fifth of a mile high.

It appears from figures furnished by the Post Office Department that the average person in Massachusetts, including men, women and children, spend \$2.30 on postage per annum. New York comes second with an expenditure of \$2.27. The District of Columbia third with \$2.18. Colorado is fourth with \$1.96, and Connecticut is fifth with \$1.80.

The States ranking lowest in this regard are South Carolina with twenty-five cents per capita; Mississippi with thirty-four cents; Alabama with thirty-five cents; Arkansas with thirty-seven cents, and North Carolina with forty-one cents.

Medal For Miss Gould.

At Washington on Wednesday a bill extending the "cordial appreciation" of Congress to Miss Helen Miller Gould for her patriotic services during the recent war and providing that the President should present to her a gold medal, was passed.

An Easy Way to Clean Windows.

Dip a piece of clean newspaper in cold water and remove all dirt from the window; then polish with dry newspaper. This plan gives the glass a brilliant polish.

Enoch's Bargain House!

Wall Paper.

We have just received our NEW SPRING LINE of WALL PAPER, which is now complete, and is one of the biggest and prettiest lines we have ever shown. Prices ranging from 5c a bolt up.

Stoves.

We carry a line of Stoves, which is unequalled. In our O. K. JEWELLS we guarantee every back 5 years.

5c and 10c Counters.

Everybody looks for our 5 and 10 cent Counters. They are now full and complete with new and attractive goods. BIG BARGAINS.

Dry Goods.

We are closing out our Dry Goods at one-half price to get rid of them. Call and look at them.

Our windows are always full of big bargains. Notice them.

TINWARE, QUEENSWARE, GLASSWARE, HARDWARE.

OUR MOTTO—"Big Sales and Little Profit."

Enoch's Bargain House, WEST MAIN STREET, Mt. Sterling.

Attention!

We will pay the highest market cash price for live Turkeys, Geese, Ducks, Old Hens and Roosters, Eggs and Hides and Furs.

Sullivan & Toohy

Mt. Sterling, Ky.

Colored Recruits

The War Department has wired Lieut. W. T. Johnson, recruiting officer at Lexington, Ky., to enlist colored applicants for cavalry and infantry for service, sending the former to Ft. Grant, Arizona, and the latter to Ft. Douglas, Salt Lake City. This is an excellent opportunity for the young colored men to get into the regular army. Apply to LIEUT. W. T. JOHNSON, Main St., Lexington, Ky.

Washington's farewell address was read in both House of Congress on Wednesday, and eulogies were pronounced on the late Senator Justin S. Morrill.

WOOD'S PILLS

Removes the bile, breaks up the liver, and cures biliousness, indigestion, headache, jaundice, nausea, indigestion, etc. They are invaluable to prevent a cold or break up a fever. Mild, gentle, certain, they are worthy your confidence. Purely vegetable, they can be taken by children or delicate women. Price, 25c. at all medicine dealers or by mail of C. I. Wood & Co., Lowell, Mass.

THE MODERN COUNTRY NEWS-PAPER.

Sitting by my fireside cozy and warm, After lighting my lamp with a taper, Drawing my easy chair nearer the light, I picked up a country newspaper.

Wishing to find an item of news, But was doomed to disappointment, For the very first thing that met my gaze

Was "Bucklen's Wonderful Ointment." Well hoping to find an item of news, I glanced further down its pages, And was informed that if I had cutstern

There was no remedy like "Dr. Sage's." I was informed still further along

If I had a grain of sense or gumption, That if my lungs were weak must take

After a line or so we were advised (Below an account of two trade and

To use those "Little Liver Pills." Put up and sold by "Dr. Carter."

The ladies all were next informed (How charming we men think 'em) To take that remedy known for and wide

Put up by "Miss Lydia Pinkham." The next I find still further down

Is "Pierce's Favorite Prescription," Followed by one known for and wide

Of glowing words in its description. Ah! there's an item, thinks I at last, A recipe for making fritters."

But followed in the next by "An ad of 'Brown's Electric Bitters.'"

So we were next informed Miss Lucy Jones Was visiting Miss Julia Stimpur

From mothers were told if baby cried To give him "Willow's Soothing Syrup."

So the thing went on from page to page In glowing terms and fancy flashes, With my pipe to soothe my nerves, And fang the paper in the ashes.

—H. C. Wilson, Levee, Ky.

For the Boys.

Once a boy was walking along the shore when he saw a very beautiful

shell. But he had his hands full at then, and he said: "I'll pick

em up when I come back." When he came back after awhile

could not find it. The waves had

swallowed it out into the sea. Sometimes a boy, girl, man or

man says: "I'll not do this I find today, I'll leave it until to-mor-

row." But by to-morrow the chance of

getting it is gone. We pay salary of \$15 per week and

send for men with big to intro- duce our Pinty Machine in the

country. Hustlers wanted. Refer- ences with stamp American

Co., 124-125 Lafayette Ave, New York, Ind.

GREENBACKS Government Money.

What done of our Civil War in 1865, the

Government issued the following: (1) If that mischievous financial

policy which had its origin in the American Republic during the late

War in that country, (2) If the Government had not been

induced during the late war, (3) If the Government had not been

induced during the late war, (4) If the Government had not been

induced during the late war, (5) If the Government had not been

induced during the late war, (6) If the Government had not been

induced during the late war, (7) If the Government had not been

induced during the late war, (8) If the Government had not been

induced during the late war, (9) If the Government had not been

induced during the late war, (10) If the Government had not been

induced during the late war, (11) If the Government had not been

induced during the late war, (12) If the Government had not been

induced during the late war, (13) If the Government had not been

induced during the late war, (14) If the Government had not been

induced during the late war, (15) If the Government had not been

induced during the late war, (16) If the Government had not been

RESIGNATION

OF JUDGE JOHN W. BARR

Of the United States Federal Court.

INTERESTING COURT DATA.

The resignation of Judge John W. Barr of the Federal Court was announced from the bench in Louisville on Monday, February 20, 1899.

There have been many expressions of regret from practitioners at his court. His resignation had been sent to President McKinley ten days previous to the announcement. He had passed the age limit, 70 years, and had served 19 years. For some months his health had been somewhat feeble.

The appointment of a Judge is for life or until removed from cause. He retired on full pay, receiving \$5,000 annually until death.

Justice Barr was the seventh United States Judge of Kentucky since the formation of the State and the third since the court began holding sessions in Louisville. He was appointed by President Hayes on April 15, 1880 while a native of Woodford county. He is seventy-two years old.

Sessions of the Court are held twice a year in Louisville, Covington, Frankfort, Paducah and Owensboro. At all of these places and throughout the State Judge Barr has been widely popular. Never a whipper has been raised against his private or official acts. The ermine of his judicial robes has never been stained by a taint of political partisanship. Just always, he tempered justice when he could with mercy.

He is a good man and the people of Kentucky will miss him.

The United States Court of Kentucky was first established September 24, 1789. It was then known as the Kentucky district of Virginia. Sessions were held at Harrodsburg.

Two days after President Washington appointed the Hon. Harry Lewis as Judge. He was born in Virginia, but was reared in Kentucky. He held the office until 1816.

His successors were as follows: The Hon. John Trimble, appointed in 1816 to January 13, 1817. Resigned in 1818 to become a member of the Supreme bench.

The Hon. John B. Leake appointed October 20, 1826. Died in 1834.

The Hon. Thomas B. Monroe, appointed March 18, 1834. Resigned in 1851 to enter the Confederacy.

The Hon. David Ballard, appointed October 16, 1861. Died June 29, 1879.

The Hon. William Hayes, appointed September 6, 1879. Died in March, 1883.

Justice John W. Barr appointed April 16, 1880.

Gladsstone's Dying Advice.

What Mr. Gladstone said to Mr. Bismarck on the latter's visit to him a short time before the great statesman died is not generally known. Dr. Clark, founder of the Christian Endeavor movement, however says:

"On excellent authority I have been told that when Lord Rochester, his successor in the leadership of the Liberal party of Great Britain, called upon him for the last time, the dying leader said most impressively to the younger statesman as the latter left his bedside, 'Remember, take care of your soul!'"

Mining Statistics.

Advance statistics from the forthcoming report of State Mine Inspector G. W. Stone show that the coal output for Kentucky in 1898 was 3,542,123 tons, the largest in the history of the State.

The year closed with ninety-five companies operating, one hundred and twenty-eight mines, and employing eight thousand four hundred and eight persons.

Representative Lewis, of Ohio, has introduced a bill for the revival of the mine of Adamant, near New Adair, the former for Bear Adair Dewey and the latter for Bear Adair Schley, and providing for the promotion of Schley to follow upon the retirement of Dewey.

Regardless of Age.

The kidneys are responsible for more sickness, suffering and death than any other organs of the body. A majority of the ills afflicting people to-day is traceable to kidney trouble. It prevails all classes of society, in all climates, regardless of age, sex or condition.

The symptoms of kidney trouble are numerous, such as rheumatism, neuralgia, sleeplessness, pain or dull ache in the back, a desire to urinate often day or night, profuse and scanty supply.

Uric acid, or brick-dust deposit in urine are signs of clogged kidneys, causing poisonous or germ-filled blood. Sometimes the heart acts badly, and tube casts (wasting of the kidneys) are found in the urine, which if neglected will result in Bright's disease, the most dangerous form of kidney trouble.

All these symptoms and conditions are promptly removed under the influence of Dr. Kilmer's Swamp-Root. It has a world wide reputation for its wonderful cures of the most distressing cases.

No one need be long without it as it is so easy to get at any drug store at fifty cents or one dollar. You can have a sample bottle of this wonderful discovery, Swamp-Root, and a book telling you all about it, both sent to you absolutely free by mail. Send your address to Dr. Kilmer & Co., Birmingham, N. Y., and kindly mention that you read this liberal offer in the Mr. STERLING ADVOCATE.

Premature Burial.

John Clark, an inmate of the Soldiers Home in Dodge City, Kansas, is said to have been buried alive for two days. He had been ill with typhoid fever. The doctor in attendance pronounced him dead, and he was buried in the soldier's cemetery with military honors.

Some of his comrades declared that they did not believe Clark was dead.

One soldier named Hazen, persisted that Clark had been buried alive, and demanded that his body be taken from the grave. The doctor was recalled and asked what he thought about the case.

After consultation it was decided to open the grave. When the coffin was opened it was seen Clark's hands were not in their former position and there was moisture upon the glass above his mouth. Still another careful nursing turned the tide for Clark and death was robbed of its victim.

When Clark was finally restored to consciousness he said that he had been half conscious of all that happened and knew that he had been buried alive.

He was buried on Wednesday and taken out on Friday.—Boston Herald, December 26.

Great Loss of Lambs and Sheep.

The cold weather played havoc with the lamb crop in Boyle county. It is believed that on an average at least one half of them were killed.

John Harris lost one hundred and seven. J. H. Brumfield lost most of his and H. N. Mitchell is reported to have lost thirty out of thirty. This will give an idea of the situation.—Danville Advocate.

Forty-eight of the fifty insurance companies listed at Georgetown for non-compliance to rate rules were convicted. The cases will be appealed.

DR. BELL'S Pine-Tar-Honey

Nature's most natural remedy, improved by science to a Pleasant, Permanent, Positive Cure for coughs, colds and all inflamed surfaces of the Lungs and Bronchial Tubes.

The sore, weary cough-worm Lungs are exhilarated; the mucus-bearing mucus is cut out; the cause of that tickling is removed, and the inflamed membrane healed and soothed so that there is no inclination to cough.

SOLD BY ALL GOOD DRUGGISTS

Bottles Only, 25c, 50c, and \$1.00 Sizes

BE SURE YOU GET

Dr. Bell's Pine-Tar-Honey

I AM 60 YEARS OLD, and have used Dr. Bell's Pine-Tar-Honey for many years. It gives quick and permanent relief to all cases of coughs and colds, and is the best remedy I have ever used.—Mrs. M. A. McCalla, Danville, Ky.

THRASHING

GIVEN TO THE FILIPINOS,

Who Had Been Using Bushwhacking Tactics.

INTERESTS OF THE ORIENT.

Brig. Gen. King on the 20th inst., administered a salutary lesson to the natives who had been popping away at his left night and day for a week past, with the result that at 6 o'clock all was quiet.

Our losses were: Private John F. Adams of Company M, Private A. Binehart of Company K, First Washington Infantry, killed, and two Californians wounded. The number of the enemy slain was fully fifty, twenty of their dead having been buried by our men.

James F. Cassidy, of Company K, First California Infantry, was killed by a Filipino sharpshooter, while scouting.

The transport Newport arrived at Manila on the 20th to offer allegiance of the inhabitants and claim American protection. Negros is one of the larger islands of the Philippine situated South of Panay and lying between that island and Mindanao, the second largest island of the group. Its principal towns are Jimanala, Dumaguete.

**"Pride Goeth
Before a Fall."**
Some proud people think they have strong constitutions, and ridicule the laws of disease. Such people neglect their health, let the blood run down, and their stomach, kidneys and liver become deranged.

Don't be foolish about your health. Use Hood's Sarsaparilla and you will prevent the fall and save your pride. **Scrofulous Hip Disease.**—My boy Willie had scrofulous hip disease from a baby. Abscesses developed. Months at the hospital, with best treatment, did no good. They said he would never walk again. He was brought and wasted away. He was nothing but skin and bone. Hood's Sarsaparilla had helped me, and I gave it to him. Imagine my delight at a wonderful change. Abscesses all healed, crutches thrown away. He is now tall and strong, perfectly well and the thanks are all due to Hood's Sarsaparilla. Other mothers with scrofulous children should know this. Mrs. Anna V. Derr, Walpole, Mass.

Nervousness.—I was weak, nervous and very delicate, staggered in attempting to walk. Hood's Sarsaparilla and Hood's Pills made me well. I feel like another person. Mrs. Lizzie Swanson, Condit Street, East, Annapolis, Md.

Dyspepsia.—We all use Hood's Sarsaparilla. It cured my brother-in-law and myself of dyspepsia. I owe my life to it. M. H. Kirk, 607 Franklin St., Philadelphia.

Hood's Sarsaparilla
Never Disappoints
Only Pills now left like the non-purifying and empty culture to take with Hood's Sarsaparilla.

The charges against Dr. W. Godfrey Hunter, Minister to Guatemala, have been quashed by the Secretary of State.

The new revenue bill prepared by a committee of the Tennessee Legislature, adds to the revenue of the State about \$100,000 annually from privilege taxes.

The gunboat Benington reached Manila Wednesday from Honolulu, raising the American flag at Wake Island on the way over, and also stopping at Guam.

Gen. Lawton and his Indian fighters will find work waiting for them when they reach Manila. The picking off of American soldiers by sharpshooters will be stopped.

The House passed a bill authorizing the appointment of five additional cadets-at-large to the Naval Academy. One of these to be appointed is a son of Capt. Gridley, who commanded Dewey's flagship at Manila, and another is a brother of Ewgen Bagley, of North Carolina.

A collision is reported to have taken place between the French and Brazilian soldiers escorting members of the joint commission appointed to inquire into the boundary dispute between French Guiana and Brazil. Each side had fifty men and a gunboat. The French colonial government at once dispatched 200 more troops.

Four commission-liners from the island of Negeras called upon Gen. Otis at Manila and informed him of the raising of the American flag there, adding that the inhabitants were ready, anxious and willing to accept any proposition the Americans might offer. The insurgents have already been driven from the island by the natives.

Fires, believed to have been started by insurgents, broke out simultaneously at several points in Manila on Wednesday night. Over six hundred buildings were destroyed, and hundreds of natives are homeless. There was some fighting in the streets, and a few insurgents were killed and several American soldiers wounded. The uprising was suppressed.

The Canadian press is bitterly criticizing the Canadian members of the joint High Commission. The opinion there is general that the settlement of a treaty has been postponed in the interest of greater negotiations between Great Britain and the United States. The public clamor may result in the retirement of Sir Wilfrid Laurier from the head of public affairs in Canada.

The British steamer Victoria arrived at Baltimore Wednesday with four of the crew of the missing steamer Bulgaria. These, with the twenty-five rescued by the Washawken, are believed to be all that were saved out of a total of 130 passengers and crew. The ship was sinking when the four men were rescued from the only boat that could be lowered into the heavy sea. The storm increased at night, and next morning nothing was to be seen of the Bulgaria.

**NAUGHTY MAN.
An Ohio Pastor Accused of Flirting With One of His Flock.**

Rev. F. E. Vance, pastor of the Grace M. E. Church, of Piqua, Ohio, was found guilty by the committee appointed for the purpose of investigating the charges preferred against him because of a flirtation he carried on with a former Kentucky girl, and was suspended from the ministry until the next annual conference when the case will again come up for consideration.

Mrs. Vance made a plea in behalf of her husband, but to no purpose. It seems that Kentucky girls have special charms for members of the ministry, even Cowley Hornby, who has many a dark and dreary night, on the Western plains, propped his head from a drowsing foe, was completely cowed by the bewitching smiles of one of his Kentucky flock, and now a heart-broken wife and four little children are left in want.

Milton was correct. "A man may smile and smile and yet be a villain."

Could Not Tax His Riches.
A tax collector one day came to a poor minister in order to assess the value of his property and determine the amount of taxes. The minister asked the man to be seated. Then the latter took out his book and asked:

"How much property do you possess?"

"I am a rich man," answered the minister.

The official quickly sharpened his pencil and asked intently: "Well, what do you own?"

The pastor replied: "I am the possessor of a Stovnor who earned for the life everlasting, and who has prepared a place for us in the Eternal City."

"What else?"

"Heath and obedient children."

"What else?"

"A merry thought, which enables me to pass through life joyfully."

"What else?"

"That is all," replied the minister. The official closed his book, arose, took his hat and said: "You are indeed a rich man, sir; but your property is not subject to taxation."

The Mind Must Be Pure.
The youth who would succeed must keep his mind pure. God and the successful man know how necessary this is. Thoughts of envy and unrighteous scheming, and last, and to be dreaded even more than all other thoughts, those of impurity must be avoided.

An impure thought is like a piece of poison crushed tightly in the hand, which, when the pressure is relieved, expands to the size many times larger than the hand itself. It is a deadly poisonous weed, exact to spring up and hardest to root out. Without a pure life, there can be no real success.—Lindsay.

There is some opposition at Madrid to the bill ceding the Philippines to the United States.

Copper Colored Splotches.
There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards turned into a general eruption on my body. I was so afflicted that I could not imagine the suffering I endured. I tried every medicine, but I was convinced that I was incurable. I had spent a hundred dollars, and was really thrown away. I then tried various remedies, but they did not reach the disease. When I had almost given up, I was greatly improved and was cured.

The result. The large red spots on my chest began to grow smaller and smaller and began to disappear entirely. I remained well and my skin became smoother and my appetite greatly improved. I was now entirely well, and my skin was as good as new. R. L. Myron, 100 Broadway, New York.

Don't destroy all possible chance of a cure by taking the doctor's treatment of mercury and potash. These minerals cause the hair to fall out, and will wreck the entire system.

S. S. S. For The Blood
Is purely vegetable, and is the only blood remedy guaranteed to contain no poison, mercury, or other mineral.
Books on the disease and its treatment mailed free by Swift Specific Company, Atlanta, Georgia.

**POWER OF PUBLIC OPINION.
Dr. Moses Fears This Moral Influence is Lax.**

Recently in Louisville, at the Temple Adas Israel, Dr. Moses spoke on two passages taken from the Psalms—Who shall ascend into the hill of the Lord, or who shall stand in His holy place? He that hath clean hands and a pure heart."

He said: "Clean hands and a pure heart sum up the whole of moral conduct. Conduct naturally falls into two halves. Outward conduct is action visible, the palpable manifestation of an individual among his fellows. It may be important in its consequences, or of very little significance to society.

"Inward conduct is feeling, thought, moral idea. If harmony between the idea and the action is habitual, then we have a noble character, and the state of holiness described in the Scripture. A man may have his outward conduct correct and lack the inward. A man may have the inward, yet lack the energy to realize these feelings. Such a man is in sympathy with moral paralysis; the wings of his heart and mind have from disease become unfit for flight.

"Outward conduct is more easily attained; for the inward society decrees a moral law. Society is the criterion of moral ideas. When these attributes of God, mercy, justice, peace, goodness were sent into this world as spiritual essences, they incarnated themselves into law, into the institution of society. Outward morality is due to the pressure of the law.

"Morality has two seats of authority. In society and in the individual. Society bears with irresistible force—public opinion—on all men and women. We live in the atmosphere of public opinion. Woe unto the man that deserves public contempt; it were better for him had he never been born. When public opinion is lax, justice begins to dissolve into its primitive status. In our own country, public opinion is shamefully low in its estimation of human life. Men are lynched for stealing a horse, while out of 10,000 murder-committed last year in the United States only 870 were punished."

ALUMINIUM FOR INDIA.
The New Metal Introduced into Madras for Various Uses.

Aluminium, which is now used in Great Britain for such a variety of purposes, has recently been introduced into Madras, and cooking pots and other utensils which used to be made of copper and brass are now being manufactured of the white metal.

Prof. Chatterton, of the Madras university, has been the main spring of this new departure, for he caused experiments to be made at the metal-working classes of the School of Arts at Madras, and in the way interested the natives in the matter. As a result a small factory was established, and this met with such signal success that in five months the output of manufactured aluminium amounted to a ton a month. This, it is remembered, would be equal, bulk for bulk, to four times as much copper. It is considered curious that the intense conservatism of the Indians should have allowed such an innovation to succeed, but on one point they are accurate. The old shapes and fashions of vessels must be rigidly adhered to. In making them of the new material, and as these shapes vary in different districts the point is one of some importance.—Chambers' Journal.

Unknown Dead.
New York, Feb. 21.—Picked away, each in a refrigerated car, and tons of ice, there were in the morgue today 170 bodies of the city's unknown and homeless dead, the largest number ever gathered there since the present morgue was built. The cause of this was that the city burying ground on Hart's Island was burned in by ice and could not be approached by the steamers of the city department.

The city supports on Hart's Island a colony of forty men whose duty it is to dig the graves in Potter's field. These men for ten days have been without occupation.

To Remove an Inkstain That Has Dried.
Try rubbing it with milk to which a pinch of salt has been added, changing the milk as it gets discolored; then remove the grease with benzine. Tartaric acid will remove dry ink stains from white goods, but would probably injure the colour of your dress.

**BUSINESS DIRECTORY.
J. M. ROBINSON,
ROBINSON & CO.,
Sixth and Main, Louisville, Ky.**

Importers and Jobbers of Dry Goods and Notions, manufacturers of "Tiger" Pants, Suits, etc. References, J. Taylor Day, Hazel Green, Ky.
